## POETRY.

### THE PRINTER BOY.

WORDS BY JESSE HUTCHINSON.

(Written for the Allegheninns, and sung by them at a Printer's Festival.)

I'll sing you a song of a Printer Boy
Whose bright and honored name
Stands out in glowing CAPITALS,
Upon the scroll of fame—
Who in the days that tried men's souls,
In Freedom's darkest night—
Stood manfully with Washington,
And battled for the right.
Ben Franklin was that Printer Boy, one of the olden time.

And it was that boy who flew his kite
To the thunder clouds on high—
And brought the forked lightning down
From regions in the sky;
'Twas he who caught this fiery horse,
And trained him for the *chaze*,
'Till now he's driven safe by *Morse*,
Right into the Printer's Case.
Ben Franklin was that Printer Boy, one of the olden time.

Long shall the world extol his name,
The patriot and sage,
Who fully justified by faith,
Was proved by every page;
His *form*, *corrected* and *revised*,
Is now *worked off* and *pressed*;
A new edition in the skies,
A star among the blest.
All honor to that Printer Boy, one of the olden time.

And now, my brother Typos, take
This *leader* for your *guide*;
Follow corrected copy, and
All errors marked outside—
Be frugal, chaste and temperate,
Stick to the golden *rule*,
And you shall stand among the *stars*
In the Printing Office school.
Just imitate the Printer Boy, one of the olden time.

*Great Fire at Worcester, Mass.*—A full account of the extensive fire, which lately occurred at Worcester, Mass., is to be found in the Boston JOURNAL. About half a million of property was destroyed, and some of the best buildings in the very centre of the city Speaking of one of the sufferers, the JOURNAL says:

"Great sympathy is felt for Mr. Merrifield, whose public spirit and real Yankee enterprise has done much towards building up the mechanical business of Worcester. He bore his loss with the coolness and composure of a philosopher. While the flames were at their height, stripping him of his property, he turned to a prominent citizen of Worcester, standing by him, and said: Col. D——, I have a note of $3,000, which is due this afternoon; I cannot attend to it myself; please take this [handing him a pocket book] and pay it. His friend did so and paid the note, and Mr. M. went on giving directions about the fire.

The number of persons thrown out of employment is estimated at 1,500. During the fire the citizens of Worcester turned out in good numbers and rendered efficient aid to the firemen.—The sun was very hot, and the firemen suffered intensely. Twenty or thirty were badly heated, and had to be removed and placed for the time under the care of the physicians.

His Excellency, Governor Washburn, was on the ground, and when the firemen became exhausted took hold of the brakes and helped work the machines like a true citizen. Several of the city clergymen rendered valuable aid. Rev. Messrs. Hile and Hale became the carriers of water to the heated and panting firemen, and Rev. Mr. James mounted the roof of a building, and did valient services in battling the flames."

*Print it in Letters of Gold.*—A father whose son was addicted to some vicious propensities, bade the boy drive a nail into a certain post whenever he should commit a fault, and agreed that a nail should be drawn out whenever he should correct an error. In process of time the post was completely filled with nails.

The youth became alarmed at the extent of his indiscretion, and set about reforming himself. One by one the nails were drawn out; the delighted father commended him for his noble, self-denying heroism, in freeing himself from his fault.

"They are all drawn out," said the parent.

The boy looked sad, and there was a whole volume of practical wisdom in his sadness. With a heavy heart he replied:

"True, father, *but the scars are there still !"*

Parents who would have their children grow to sound and healthy characters, must sow the seed at the fireside. Charitable associations can reform the man, and perhaps make a useful member of society; but alas! the scars are there. The reformed drunkard, gambler or thief, is only the wreck of what he once was; he is covered with scars—which will disfigure his character as long as he shall live.

*Western Eloquence.*—A stump orator in the West uses the following appropriate language: "If I am elected to this office, I will represent the earth, or the night contracts with the day. I will unrivet human society, clean all its parts, and screw them together again. I will correct all abuses, purge all corruption, and go through the enemies of our party like a rat through a new cheese. My chief recommendations are, that at a public dinner given to——, I ate more than any two men at the table—at the late election I put in three votes for the party—I've just bought a new suit of clothes that will do to wear to Congress, and I've got the handsomest sister in old Kentuck."

*What I would do.*—If I were possessed of the most valuable things in the world, and was about to will them away, the following would be my plan of distribution:

I would give the world truth and friendship, which are very scarce. I would give an additional portion of truth to lawyers, traders and merchants. To gossiping women, short tongues. To young sports, or dandies, common sense, little cash and hard labor. To old maids good temper, smooth faces, and husbands. To old bachelors love for virtue, wives and children.

*Progressive.*—There is not a country in the world where the people are becoming so extravagant in the mode of dressing and living as in the United States. It is one of the worst signs of the times. The habits of the mushroom aristocracy are really disgusting. How ludicrous it looks to see boys sporting diamonds by the thousand dollars' worth at a time, whose fathers were accustomed to wheelbarrows, and whose children are pretty certain to be in the workhouse.

And girls—silly, simpering things—weighed down with jewels and bracelets, whose mothers broke their backs at the washing-tubs, scouring floours and picking oakum. The real, substancial aristocracy never indulge in such foppery and fooleries.—*Ex.*

An Asiatic chief, being asked his opinion as to wine, remarked that he thought it was a juice extracted from a woman's tongue and a lion's heart, for after he had drunk enough of it, he could talk forever and fight the devil.

An exchange paper asks very innocently if it is any harm for young ladies to sit in the lapse of ages. Another replies that it all depends on the kind of ages selected. Those from 18 to 25 it puts down as extra hazardous.

*Burns, the Fugitive.*—The U. S. cutter Morris, with Burns, the fugitive slave, on board, arrived at Norfolk on Saturday.

HON. JOHN PETTIT.—We observe that all the abolition presses throughout the State are venting their spleen and the poisonous venom of their depraved hearts on the speeches made by the above named gentleman, at Lafayette and Indianapolis, on the Nebraska & Kansas Bill. Not satisfied with his arguments, and his forcible conclusions, they persist in changing his language and perverting the truth thereof with the view of deceiving the public mind. "O Shame where is thy blush" Consistency where are they virtues! *Ye defamers of truth, ye disturbers of peace and violators of law and order*, better that you turn from the "error of your ways" and avoid the just and honest judment that will be passed upon you by the triumph of the unchangeable principles of Democracy at the approaching compaign. You are heaping epithets upon a man whose latches you are unworthy to unloose and whose mighty powers of intellect you are unable to comprehend. Your thundering and invectives have about the same force as a "Ram-butting a gate post."

## The Nebraska and Kansas Bill.

We publish to day the bill introduced by the Hon. STEPHEN A DOUGLASS, Chairman of the Committee on Territories in the U. S. Senate, commonly called the Nebraska Bill, upon which there has lately been so much discussion, and which, to a considerable extent, is now absorbing the attention of the people of the north. We venture to say that no measure has ever been presented to the American people which contained principles of more vital importance, and which, when properly understood, will meet more general sanction by the genuine supporters of political freedom. And yet it has been met by our opponents only by the fiercest denunciations and abuse, not only by whigs and professed abolitionists, but by all factions, leagues and alliances outside of the democratic party, who seek at all to influence political action.

We are aware that some of the democrats differ in sentiment respecting this measure, though we believe they generally agree that the principle of *non-intervention by Congress* is right. Some think this principle was unnecessary and uncalled for in its application to the Territories organized by this bill We respect the opinions of such as honestly differ with ours; we are willing to accord to them the same right we claim for ourself; but we think, when the reasons are sufficiently examined to be judged of in their true light: when we carefully examine the legislation by Congress, of 1850, and the causes that induced that legislation: when we consider that, by it, the question of slavery concerning other territories was withdrawn from the Halls of Congress and refered to the people who settle in the territories, and who, alone, are responsible for its existence, we are at a loss to see why the same principle should not now apply which was then adopted; we cannot see what justice there is in the complaints against this bill. It is well for us all to examine and know what its provisions are before we prejudge and condemn them.

An effort has been made, and is still being persevered in by many of our political opponents, to carry the impression that, by this act, slavery is absolutely legislated into these Territories. Many who have not examined for themselves really believe such is the fact. This is not true; and those who seek to give this belief know they do it in the face of truth. Newspaper articles headed "The Nebraska Swindle" are flowing the whole country. Now the provisions, as we understand, against which objections are mainly made to this bill, are contained in the 14th section, and which, upon examination, will be found to provide in substance, that Congress shall neither legislate slavery into these Territories, nor out of them, but leave the people of the Territories free to regulate their domestic concerns in their own way, subject only to the Constitution of the U. S.—which embraces the question of slavery as well as all others—and the concluding part of this section expressly provides against the result that is charged, that is, *that slavery is legislated into these Territories.*

The provisions of this bill simply leave to the people who settle in the Territories the regulation of this, as well as all other questions concerning their domestic rights: this is all there is of it. And for the recognition of this right all this outcury, and threats of dissolving the Union have been made. We think it is time at length that truth should make itself understood, and, with this view, place before our readers this bill as it became the law of the land, without the objectionable amendment offered by Mr. Clayton, whig senator from Delaware. We ask you to read and judge it for yourselves. We abstain at present from making any extended remarks upon the many published falsehoods against it, preferring first to let our readers examine this bill. At some future period we shall take occasion to comment fully upon the repeal of what is called the "Missouri Compromise." We shall meet the charges brought against it by showing the faithless manner in which it has been observed by the men who are now prating about violated faith and the observance of solemn compacts; we shall show the falsity of the common charge against the supporters of this bill in the North, that they are "encouraging and sustaining the institution of slavery for unworthy political objects," and we shall try to unmask the hypocrisy of those who make this charge. It is not true that we are the advocates of slavery for the sake of slavery, or to advance *unworthy political objects*. With slavery as an abstract question as to its moral right or wrong, we have nothing now to say; but when we consider that slavery existed in nearly all the States at the time and long before our Federal Union was formed, and when we consider the objects of that Union, we are constrained to think it was foreign to those objects to assume the regulation of the domestic institutions either of the States or Territories. For ourself, we prefer to sustain the Union, we prefer to sustain the action of our government in its proper sphere, instead of joining in the political crusade of our combined adversaries.

We are the advocates of this bill, not because we are the friends of slavery, but because we are the friends of self-government, and of the equal rights of the South as well as the North. We object to that kind of *magnanimity* which looks only to the portion of the Union in which we happen to live; and while we frankly admit we see nothing to admire in slavery, we see much to condemn in the modes of warfare against it. The South had her institutions before we had this government; and because some of us may not like them, we can plead no justification in permitting ourselves to be fauned by the flames of *restless fanatics* into an unjustifiable aggression against them.

We think this narrow sentiment would not be justified when we consider we have a government brought into being by the patriotic men of the South as well as the North; we think it a feeling alien to the spirit of our Constitution.

We call upon our fellow citizens, and especially the democrats, to examine this bill for themselves; and we call upon you, in these times of sinning popular delusion, to sustain our government, in the support of Constitution, law and order. In doing this you will have the consolation to stand where you always have stood. There is no cause for alarm if democrats do their duty; we ask you to consider that no prominent measure was ever passed by a democratic administration—however palpably just and necessary—but what has been denounced by our opponents as ruinous to the country, and yet our country, under democratic administration, has survived all these predictions.

HARPER'S MONTHLY MAGAZINE for July has come to hand, filled with an unusually good selection of interesting reading, and illustrated with a large number of beautiful wood engravings. In mechanical or artistic appearance it is one of the best magazines public her in the United States. Price 25 cent.

It can be found at Hill's book Store, as well as Putnam's Monthly and Graham's Magazine.

*The Western Odd Fellows Magazine.*—This work will hereafter be published at Centreville, Indiana, by Geo. B. Jocelyn, who has recently purchased said Magazine and intends printing it on entire new type, whereby he hopes to excel any Magazine in the west in typographical appearance, and equal any and all in the reading matter that shall fill its columns.

We bespeak for the new Editor and proprietor of said work a liberal patronage from the Brotherhood. It only costs one dollar per annum when paid in advance.

*Schnapps Soda Water.*—As a medicine, we have great respect for fresh water, whether in large bodies like Lake Superior, or in small quantities. We also like it when impregnated with alkali and fixed air. it assumes the sparkling form of soda water. And this brings us to a new fact in dietetics, viz: the new introduction and popularization of a new modification of soda water, called "*Soda Schnapps.*" It is simply an infusion of a little of Wolfe's Schiedam Aromatic Schnapps in ordinary soda water. This delightful exhilarant imparts a pleasant flavor to the beverage—prevents its icy coldness from having any bad effect on the stomach, corrects its acidity, renders it more refreshing, and effectually quenches the thirst. This is our experience, and our readers are welcome to it.—*Boston Post.*

## The Democratic Party.

The Democratic Party (1) represents the great principle of progress. It is onward and outward in its movements. It has a heart for action, and motives for a world. It constitutes the principle of diffusion, and is to humanity what they centrifugal force is to the revolving orbs of a universe. What motion is to them, Democracy is to principle. It is the soul in action. It conforms to the providence of God. It has confidence in man, and an abiding reliance in his high destiny. It seeks the largest liberty, the greatest good, and the surest happiness. It aims to build up the great interests of the many, to the least detriment of the few. It remembers the past, without neglecting the present. It establishes the present, without fearing to provide for the future(2). It cares for the weak, while it permits no injustice to the strong. It conquerse the oppressor, and prepares the subjects of tyranny for freedom.—It melts the bigot's heart to meekness, and reconciles his mind to knowledge. It dispels the clouds of ignorance and superstition, and prepares the people for instruction and self-respect. It adds wisdome to legislation, and improved judgment to government. It favors enterprise that yields a reward to the many, and an industry that is permanent. It is the pioneer of humanity—the conservator of nations. *It fails only when it ceases to be true to itself. Vox populi vox Dei* has proved to be both a proverb and a prediction(3)

## Message of the President.—Treaty with Mexico.

The government of Mexico has authorized its envoy extraordinary to exchange the ratifications of the treaty as lately recommended by our Senate, and sent by the President for the action of the Mexican government. By the terms of the treaty, upon the ratification, which is to take place by the 30th instant, seven millions of dollars are to be paid to Mexico. The President, on yesterday, sent a message to Congress asking an appropriation to enable him to consummate the ratification. The message in as follows: *Message from the President of the United States, transmitting a copy of the Treaty between the United States of America and the Republic of Mexico.*

*To the House of Representatives:*

I have received information that the government of Mexico has agree to the several amendments proposed by the Senate to the treaty between the United States and the republic of Mexico, signed on the 30th of December last, and has authorized its envoy extraordinary to this government to exchange the ratifications thereof. The time within which the ratifications can be exchanged will expire on the 30th instant.

There is a provision in the treaty for the payment by the United States to Mexico of the sum of seven millions of dollars on the exchange of ratifications, and the further sum of three millions of dollars when the boundaries of the ceded territory shall be settled.

To be enabled to comply with the stipulation, according to the terms of the treato, relative to the payment, therein mentioned, it will be necessary that Congress should make an appropriation of seven millions of dollars for that purpose before the 30th instant, and also the furter sum of three millions of dollars, to be paid when the boundaries shall be established. I therefore respectfully request that this sums may be put at the disposal of the executive.

I herewith transmit to the House of Representatives a copy of the treaty.

FRANKLIN PIERCE.

WASHINGTON, June 20, 1854.

*Mr. Starkweather and the Chili Mission.*—Hon David Starkweather's appointment as Minister to Chili, while it is gratifying to his numerous friends, refutes a libellous imputation upon the President, which has been travelling the rounds of the whig and abolition press. They have charged him with holding that mission in reserve as a reward to some member who voted for the Nebraska Bill.—And it has been a peculiar pleasure of theirs to pick out this man, and that as the probable recipient of the executive favor. The last Democrat mentioned was Mr. Ingersoll of Connecticut. The entire groundlessness of these slanders is shown by the appointment of Mr. Starkweather—who was at the time a private citizen of Ohio.—*Cleveland Plaindealer.*

An exchange contains the following lively report from the neighborhood of Kansas. It was taken on the ground as late as June 13th:—

"The country is swarming with emigrants.—Men on horseback, with cup and skillet, and ham, flour and coffee tied on behind, and with axe shouldered, are facing westward; while gentlemen and ladies are driving furiously to and fro in carriages, printers writing, lawyers speaking, doctors galanting ladies and selecting sites for residences, companies with flags waving, staking out the vast prairies, trees falling, tents stretching, cabins going up, everything, alive, and everything wide awake. Hurrah for Kansas! "Westward the star of emtakes its way!"

The Whig Convention will be held on Thursday the 29th inst. at Portland. The Convention of Free Democrats is to be held at Lewiston, on the 5th of July.

(1) Democracy is compounded of two Greek words, —"*Demos*," people, and "*Kratos*," government: The government of the people.

(2) "O ten," says the son of the late Judge Story (who as far as her was in early live a democrat.) "in speaking of this subject (democracy,) I have heard him say, "I like as much to see a young man democratic as an old man conservative. When we are old, we are cautious, and slow to change, if we have benefited by experience. When we are young, we hope too much, if we are generous and pure." "—*Life and Letters of Judge Story*, vol. 1., p. 99.

Condorcet, although an aristocrat by genius and by birth, became a democrat from philosophy.—*Lamartine.*

(3) A few years since, a whig member of United States Senate sneeringly asked senator Allen, of Ohio, the question, "What is Democracy?" The following was the prompt reply, Democracy is a sentiment not to be appalled, corrupted, or compromised. It knows no baseness; it cowers to no danger; it oppresses no weakness; destructive only of despotism, it is the sole conservator of liberty, labor, and property. It is the sentiment of freedom, of equal rights, of equal obligations,—the law of nature pervading the law of the land."

# FOREIGN NEWS.

The Atlantic arrived early this A. M., with Liverpool dates to the 13th.

FRANCE—Paris, Friday.—We stated last night as positive, that Marshal St. Arnaud had written to the government, demanding another division. It would appear that some discontent was felt at the conduct of Prince Napoleon. He is said to be in constant communion with the refugees, and indeed, the fact of his having been accompanied by Monsieur Emile, from Paris to Marseilles, occasioned considerable displeasure in high circles. It is started that there is every probability of his soon being recalled if he does not give up the delights of Constantinople, and retire to the camp of his division.

The Paris Moniteur contains a decree issued by the Austrian government, prescribing the course to be adopted by the commanders of vessels carying the Austrian flag during the war.—The decree is dated May 25th, 1854.

The Russians have left Onsor for Kontars, carrying with them 453 sick. The inhabitants of the latter place, on hearing of this latter movement, sent to the Russians that the place was in a state of famine, and that they would be badly received there.

The Russian troops, who have evacuated the fortresses on the coast of Anapa, to redoubt at Kale, have marched to Tiflis. Schamyle was within 18 hours march of that place, at the head of 35,000 men.

AUSTRIA AND PRUSSIA.—It is rumored that the conference of the Emperor of Austria, and the King of Prussia is held because a negative answer is expected from Russia, and the Empire of Austria is willing to renew the summons.

*Hoofland's German Bitters*—We would call the attention of our readers to the advertisement of Dr Hoofflands celebrated German Bitters, prepared by Dr C. M. Jackson, No. 120 Arch street, Philadelphia. In cases of Liver Complaint, Dyspepsia, Disease of Kidneys, and all diseases arising from a disordered stomach, their power is not excelled, if equalled, by any other known preparation, as the cures attest, in many cases, after the most celebrated physicians had failed. We can conscientiously recommend this medicine, as being what is represented, and urge on readers who are afflicted to procure a bottle, and they will be convinced of the truth we assert.

A WONDERFUL DISCOVERY has recently been made by Dr. Curtis, of this city, in the treatment of Consumption, Asthma, and all diseases of the lungs. We refer to "Dr. Curtis's Hygeana, or Inhaling Hygean Vapor of Cherry Syrup." With this new method Dr C has restored many afflicted ones to perfect health; as a evidence of which he has innumerable certificates. Speaking of the treatment, a physician remarks:—It is evident that inhaling—constantly breathing an agreable, healing vapor, the medicinal properties must come in direct contact with the whole of the aerial cavities of the lungs, and thus escape the many and varied changes produced upon them when introduced into the stomach, and subject to the process of digestion. The Hygeana is for sale at all the druggists throughout the country.—*New York Dutchman*, of June 14 h.

## MEDICATED INHALATION.

### A New Method.

A MOST WONDERFUL DISCOVERY has recently been made by Dr. CURTIS, for the cure of Asthma, Consumption, Bronchitis, Coughs, Colds, and all Lung Complaints, by Medicated Inhalation. Dr. CURTIS'S HYGEANA, or INHEALING HYGEAN VAPOR and CHERRY SYRUP, has accomplished the most wonderful cures of Astma and Consumption in the city of New York and vicinity for a few months past, ever known to man. It is producing an impression on Diseases of the Lungs never before witnessed by the Medical Profession.—[See certificates in hands of Agents.]

The Inhaler is worn on the breast, under the linen, without the least inconvenience, the heat of the body being sufficient to evaporate the fluid,—supplying the lungs constantly with a healing and agreeable vapor, passing into all the air-cells and passages of the lungs that cannot possibly be reached by other medicine.

Here is a case:

ASTHMA CURED.

BROOKLYN, N.Y., Dec 20th, 1853

For about eight years I have been severely afflicted with the Asthma: for the last I have suffered beyond all my powers of description; months at a time I have not been able to sleep in bed, getting what rest I could sitting in my chair. My difficulty of breathing and my sufferings were so great at times, that for hours together my friends expected each hour would be my last. During the past six years I have had the attendance of some of the most celebrated physicians, but have received no permanent benefit, and but little relief. I at length had the good fortune to procure Dr Curtis's Hygeana or Inhaling Hygean Vapor and Cherry Syrup. At the time I first obtained it, I was suffering under one of my most violent attacks, and was in great distress, almost suffocating for want of breath. In less than ten minutes from the time I applied the inhaler to my stomach, and took a teaspoonful of the Cherry Syrup, I was relieved in a great measure from the difficulty of breathing, and had a comfortable night. I have since continued it with the greatest possible benefit, and am now comparatively well. God only knows the amount of suffering this medicine has relieved me from. My advice to the suffering is,—TRY IT.

MAGARET EASTON.

[CONSUMPTION CURED.

NEW YORK, Dec 27th, 1853.

I came to New York in the ship Telegraph; my native place is St John's, New Brunswick; when I was but little over eighteen years of age, I took a very bad cough, raised a good deal of matter, which was frequently mixed with blood; had pain in my left side, and was very weak and emaciated. My friends and physician pronounced my case Consumption, and beyond the reach of medicine. I accidentally heard of Dr. Curtis's Hygeana, or Inhaling Hygean Vapor and Cherry Syrup, and obtained a package, which I verily believe was the means of saving my life. Soon after wearing the Inhaler, I found it relieved the pressure on my lungs, and after a while the disease made its appearance upon the surface under the Inhaler. I the Cherry Syrup as directed, and continued to do so, my cough gradually growing better, until it entirely left me, and I now consider myself cured. I still wear the Inhaler, as the use of it is rather pleasant, and believing it strengthening and purifying to the lungs, I feel unwilling at present to dispense with it.

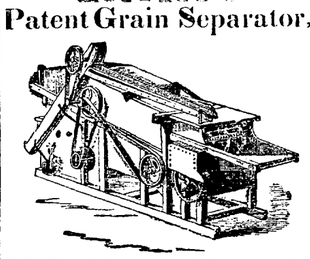
## MOFFITT'S
## Patent Grain Separator,



I W SH to call the attention of those interested to my eight horse power "GRAIN SEPARATOR," which, after having been for the past two years in successful operation, has proven itself to be greatly superior, in every particular, to all other now in use.

The first premium was awarded to this machine at the Ohio State Fair, held in Dayton—also, at the World's Exhibition in New York, in 1853—the only places at which it has been exhibited in this country.

At a practical test of this Separator in competition with the best of those made in England, last season, it received the highest commendations of the press, and of all the leading Agriculturists in that country.

I will have a large number ready for the coming crop, made of the best material, and warranted to do good work.

I am also making a number of my small Separators for the convenience of those who wish to have their own machines. They are driven by two horses on an endless chain, or by four in a lever power. They thresh and clean the grain perfectly, and deliver it in bags. Its weight is 750 pounds.

N B. References in abundance can be given if desired.

If will have fifty of Crawford's Patent Clover Hullers ready for the Clover Crop. This Huller is undoubtedly the best now in use.

## Leeches, Leeches, Leeches!

A CONSTANT supply of fine *Swedish Leeches* always on hand; or applied by R. C. NEWMAN, at the establishment of

J. D WERDEN & Co.,
Apothecaries & Chemists, Calhoun street

R. R. R.—What do the Sick Require?

To those who think.—If sick, if suffering the tortures of pain, or afflicted with long *illness*, the *invalids* constant hope and most fervent desire is to be relieved and cured of the distressing ailment, that renders the existence so miserable, in the quickest possible time. In this principle the R. R. R. REMEDIES are founded. Instant Relief from Pain, Quick Cure of Diseases, Speedy Restoration to Health, is the great platform on which the R. R. R. Theory is edificated.

*See* R. R. R. REMEDIES are worthy of the age. They instantly relieve the bed-ridden from the most excruciating pains, and quickly free the afflicted from the most obstinate and serious maladies, infusing new life and vigor in the shattered and bruised body, and renew each member and organ of the human system with strength and power.

The R. R. R. REMEDIES consist of RADWAY'S READY RELIEF, RADWAY'S RENOVATING RESOLVENT, and RADWAY'S REGULATORS.

RADWAY'S READY RELIEF is for the instant relief of the sufferer from pain, and to check and arrest the *progress* of diseases; to disinfect animal, malarious, and infectious poisons, thus protecting whoever uses it against all poisonous infection from contagion, and from sudden attacks of Cholera, *Pneumonia*, Ship Fever, Fever and Ague, &c. Likewise for the effectual and radical removal of all pains and diseases of the Joints, Limbs, Nerves, &c.

Its first action is to remove the pain, (*hence its usefulness in Neuralgic cases;*) its second, to repair and heal as in the of a cut, or wound. If the Relief be applied after the first little smarting is over, the pain is extinguished, and the *work of reparation now commences*. But if the Relief is not applied, there are many chances to one that the pain will continue and an inflamation be set up and instead of a single incised wound we have Inflammation—disease to contend with. Besides its direct power over pain, the Ready Relief is the most effectual and consistant "counter irritant" that is known to the medical world.

If there be a congestion or heaping up of the blood in any particular part, occasioning pain and threatening inflammation or disease, as Sore Throat, Lumbago or pains in the bone, Pleuratic congestion, &c., the Relief will be found the most invaluable curative. By applying it over the adjacent parts, the blood is drawn away from the affected parts, the congestion dissipated, and the pain removed at once. Let any who may doubt this but *make the trial*—Now, these *very properties*, its power over pain and its "counter irritant," render it the most valuable remedy for Diarrhœa; and although not an astringent in the popular meaning of the term, well *he stops the pain and arrests* the discharge of the most frightful Diarrhœa and Cholera in short time.

DESINFECTANT,

RADWAY'S READY RELIEF *is the most safe and powerful desinfectant in the world*—as such, it is a most effectual cure and positive preventative of

FEVER AND AGUE.

So with other fevers and other malarious diseases. Ten or twenty drops taken internally in a little water, will protect the system against any attacks from infectious and malarious poisons.

PNEUMONIA,

whether Typhoid or Bilious, RADWAY'S READY RELIEF gives internally and applied over the surface of the body, and the bowels regulated and kept soluble with RADWAY'S REGULATOR, the patient will soon be out of danger, and *speedily* restored to health. If the R. R. R. Remedies are given they will save the life of the patient.

RADWAY'S RENOVATING RESOLVENT

is the second of the R. R. R. Remedies. It is for the cure of Chronic diseases that have been lingering in the system for years.

HIGHLY IMPORTANT TO ALL AFFLICTED WITH CHRONIC DISEASES.

For the present, then, let us pass to the consideration of the RESOLVENT, the second of the three R. R. R. Medicines.

RADWAY'S RENOVATING RESOLVENT is for the cure of Chronicle Diseases, or inflammation that is kept alight on fire by some sustaining cause; for the Chemists tell us that inflammation is a slow concealed combustion and his cause is a deposit resulting from the inflammation whilst it is in an active or acute condition, for all disease is at one time acute before it becomes chronic. If a person has Chronic Rheumatism, it is the *result of a deposit* in the fibrous tissue surrounding joints; if a person is Scrofulous, these deposits often show themselves in small lumps under the chin and along the neck; if he has a Consumption or Chronic Cough, there is tuberculous matter deposited in the lungs: if Bronchitis, it takes place in the bronchial tubes; if Syphilis, it occurs in every tissue and organ of the system, for that disease spares nothing. Now, to cure these *diseases*, these chronic inflammations, (for it is this in every case,) it is manifest that the diseased deposits must be first removed, the sustaining cause be taken away, and that the impure blood be altered in its condition and rendered pure and healthy.

It becomes necessary, then, that the absorbants be active and the blood be purified. We therefore want a *medicine* that will act on the absorbants and stimulate them into action, and at the same time purify the blood. Medicines that depend merely on purifying the blood alone will scarcely ever cure chronic diseases: *to ensure success* they must at first have the power to stimulate the absorbents, and remove the diseased deposits. The action of the RESOLVENT is directed first to the absorbents, stimulating them into action and second to the blood which it depurates by its action on the glands, the liver, pancreas, kidneys, &c., which are the sewers that nature has established for purifying the blood. You will after this *description*, we hope, appreciate the name we have given to the second of the R. R. R. REMEDIES, OF RENOVATING RESOLVENT. It resolves only diseased deposits, it purifies the blood and it renovates the system. Tumors are removed and diseased by its operation. Chronic Swellings are dissipated. Nodes are softened and melted away. The most loathsome Skin diseases disappear under its action. Scrofulous constitutions are soon amended, and the disease checked, wherever it has attacked the system. Syphilis, with all its horrible train of consumption, too, of times finds its master—Consumption that prevalent and lamentable disease of the lungs, that is so well known to you all, from its fatal and silent, helpless character, and the havoc it produces among the young, the most gifted and the most beautiful of the human race, creeping over our vitals with animidious yet awful certainly, and consigning to an early and premature grave its yearly hecatombs of victims. Tubercular Consumption is often regarded as a specific disease of the lungs alone. This is a mistake. It is but one of the forms of Scrofula—it is a Scrofulous deposit an inflammation of the lung structure and could be as readily cured as any other scrofulous disease—such as Rickets, *Hip Complaint* or White Swelling—in which it takes place.

The lungs expand and contract during every respiration; and from the moment the first breath of life is drawn, until the last guttural sigh passes from the dying mouth a never ceasing action is kept up on their part. It will readily conceived then how difficult it must be for an Ulcer of the lungs to heal where it is continually, kept irritated by the act of breathing.

Understand, then we do not offer you the RESOLVENT as so certain a cure for Consumption or Scrofula of the lungs, as it is for other Chronic diseases. We believe that it will cure Scrofula in any other part of the body but from the very nature of the case, the complaint—except in its first stages—is of times incurable; but we can recommend it as the most certain remedy [when taken as directed in our pamphlets] that we possess to arrest its progress, and can point to a large number of cases of *Lung Diseases* that it has cured.

Such then, is the RENOVATING RESOLVENT. What the Relief is to Acute disease the RESOLVENT is to Chronic; it resolves away the foreign and diseased deposit, it purifies the blood and it renovates the system.

NO. 3.

We now request the reader's attention to third of the R. R. R. REMEDIES,

RADWAY'S REGULATORS.

Every pill taker should examine the theory on which the REGULATORS are founded. Every one "who takes pill," will find RADWAY'S REGULATORS she most pleasant and safe Regulator of the Liver, Bowels, Kidneys, and other organs of the system made.

We have hitherto been treating of *disease or inflammation in its acute or chronic state* and its remedies; the RELIEF on one hand and the RESOLVENT on the other. We now pass to the consideration of that state of the system immediately preceeding *disease or inflammation*, viz: the Pimples. To allay irritation of the nervous system, and remove it effects where or it exists, and to aid the RELIEF or RESOLVENT in treatment of inflammation, are the chief purposes of the REGULATORS

But this is her constitution the cause to disease? Because the glands of the system are controlled by the brain and nervous centers, and what *irritates the brain cause irregularities* of the glands, and when the glands refuse to do their work, the foreign matter which is their duty to remove, is left in the blood, and increases the already existing irritation. The glands are nervous the system and are compose chiefly of the Liver the Kidneys the Pancreas, the Salivary Glands and those of the skin and intestinal canal. Now, a regular and honest action of these organs are indispensible to keeping the blood in a pure and natural state If we give you poison instead of food to of you can easily understand and that the blood will be corrupted by it, and diseased action will follow, and it will be just as surely corrupted if the glands do not abstract the work out materials rom it.

Again it the kidneys be interfered with in their action, from any irritation whatsoeve, why they we have the salts of the urine the poisonous urea circulating in the blood, producing headaches, coma drowsiness, &c.

And, last and most important of all, if any irritating causes interfere with the operation of that great *labo* atory the Liver, behold the disastrous effect! The bile, instead of passing into the intestines to and them in their movements, [for the bile is Nature's purgative] is left to circulate in the blood, the bowels, *therefore become* inactive and the carbonifaous bile [or carbon or charbon] is the chief component of bile] circulating in the blood is the cause of the fever of the system; The superabundance of carbon is to blood meeting with the oxygen as it passes through the lungs is slowly consumed, and gives out a superabundance of heat, and this is fever.

RADWAYS REGUCATORS induce a healthy regularity of glandular action. No Costiveness, or Dyspepsia of Ingigestion, or Pains in the Side or Liver Complaint or Pains in the Kidneys will trouble you if RADWAY'S REGULATORS are taken, and we confidently assure all who are afflicted with these distressing complaints that RADWAY'S REGULATORS will cure them.

R. R. R. REMEDIES are suited to the treament and, unified will cure most of "the ills that flesh is heir to." The sanguinary practices of the lance, the cupping glass, and leaches, they entirely dispense with, and banish forever the pernicious use of that bannul drug, dalomel.

If you be sick, we advise you to resort once to the R. R. R. REMEDIES, as the most prompt in their action, the most state and effectual of *remedies*.

Instances of diseases prevented, of rapid cures, and almost miraculous recoveries we can furnish you the certificates and credentials without number.

But these may be obtained without merit as well as with it, and without knowing the circumstances, prove nothing to your mind.

The R. R. R. REMEDIES are forsale by druggists everywhere. Persons *desirous of learning more of our* REMEDIES Are referred to our FAMILY FRIEND and monthly paper, *copy* will be sent free of enarge, to all who will send in their names and address.

## About Medicine.

SEEING the world is full of new Medicines, if any person would introduce still another, in the midst of confusion, what is to be done? There is nothing to be done, if the medicine is good, that we know of, only to write the truth about it, in plain language, and let the article stand on its own merits, by speaking for itself through its cures. Of the purely natural Remedy obtained from a *Salt Well, 400 feet deep, in Pennsylvania,*

## KIER'S ROCK OIL,

We observe that as it *cures* various diseases, it will not do to class it among the humbugs,—although it is too much to say it will cure every body every time. Few, very few, however, among the multitudes now using it, are disappointed. Used as it is, both EXTERNALLY and INTERNALLY, it stands the greater chance of reaching the seat of disease. There are various kinds of old Petroleum—offensive to smell and taste. Many of the Liniments of the day and some are very *good* are compounded in part with some kind of Rock Oil. Hence it stands to reason that if a Petroleum can be had which can be swallowed it must be good, and thus, *Kier's Oil*, having that advantage, is the very essence and quintessence of medicine. It doctors the whole man, from head to foot—flesh and blood—skin and bones, and eradicates Disease and the cause of Disease—root and branch.

Justified in using this language, as the Proprietors are, from personal observation for the last two or three years, as well as from constantly accumulating testimony—Letters—Certificates—printed, and written, and verbal Statements,—we do not feel at liberty to hold back the result from the people—it would not be right.

### IF YOU OBJECT

that it is said to cure *too many diseases* to be good.—We reply—We cannot tell *how* it is, but so it is—that it cures so many diseases—and it is no affair of ours—it is the good fortune of the afflicted. We suppose it is just as easy for NATURE to make a Remedy for the whole man as part of a man—she never leaves her work half done. Another thing—we do not have as many diseases as we think. Take for instance

SCROFULA—or KING'S EVIL, and all those Diseases having their origin in a depraved condition of the blood, and other fluids of the body,—this Oil will eradicate them with little cost. And yet there are perhaps a dozen different manifestations of Scrofula, in the same or in different persons—and some people call them different diseases, which will never do. It was the opinion of the late Dr. *Rush*, Philadelphia, that there existed in *Nature* an antidote to every malady to which man is liable.

## Proclamation to the Invalids of Syracuse.

## $1,000 REWARD!

## PULVERMACHER'S

## *Hydro-Electric Voltaic Chains*

ARE for the first time introduced to the people of Syracuse and vicinity, and the most *convenient, effectual* and strictly scientific mode of instantly relieving and permanently curing all

NERVOUS DISEASES.

Now we know that an announcement similar to the above meets the eye of the reader almost daily, and perhaps this may be classed with many others. But listen or you do us injustice. It is claimed that Pulvermacher's Electric Chain is the only magnetic remedical agent that is secured by patent granted by this government, on the ground that it was a strictly useful and scientific article. The Chains are now on exhibition at the Crystal Palace and attract much attention from the thousands who daily visit it.

MODE OF USE.

The manner of using the Chains is very simple. The chain is first *moistened* with *common vinegar*, and then one end of the chain is applied to the part where the pain is located, and the other end opposite to the feet. The ends of the chain should never touch each other. At the moment of application, the most acute *pain is instantly* relieved, wherever it is located, by the passing through the part a constant current of uninterrupted electro magnetism. In the following diseases, no other remedy has ever given such complete and perfect satisfaction to the patient as Pulvermacher's Electric Chains: Rheumatism, Painful and swelled Joints, Pains in the Back, Deafness, Blindness, Paralysis, Neuralgia in the face, Long standing Nervous Headache, Palpitation of the Heart, General Debility, Dyspepsia, Female Diseases, Asthma, Contracted Joints, &c.

1,000 DOLLARS

will be given to any *person* who will produce so many well authenticated certificates of cure from intelligent patients and scientific physicians of the above diseases as has been performed by the use of the Electric Chain during the past year.

ANOTHER FACT.

It is truly the fact that wherever the electric chains have been introduced bottled nostrums and common feed have greatly diminished in sale, people having become disgusted with the practice of using their stomach for drug shops.

RECOMMENDATIONS.

The Electric Chains are highly recommended by Professors Mott, Nan Buren, Post and Carnochan, of New York; are also in daily use in every Hospital in that city. The chains will last for years, are always ready for use, and produce no injurious results, when used as directed.

FEMALE DISEASES.

The introduction of the Electric Chain into this country is the dawn of a new era in medicine. During the last twenty years, it can safely be estimated that *ten thousand* female lives died yearly from this one disease.

PROLAPSUS UTERI.

It is well known to medical men that this common disease is beyond the reach of medicine, and that in proportion to the amount of medicine given, the more the patient is doomed to suffer, and sooner will death close the scene.

During the last 2 years more than *one thousand cases* of *Prolapsus Uteri* (falling of the womb) have been *permanently* cured in England and France. Most of those cases were ladies of high standing, who had previously tried all other kinds of treatment with no benefit. Among the distinguished ladies that have been cured in Paris is the present Queen of France. In this country, during the last year, *one hundred cases* have been cured in the city of New York, many who have allowed their cases to be published for the benefit of those suffering with similar complaints. The mode of use is simply to apply one end of a 30 link chain to the spine just above the hips, and the other end upon the abdomen, and allow the chain to remain for one hour. This is to be repeated four times during the twenty-four hours.

CHRONIC RHEUMATISM.

The Electric Chains never fail to relieve the severe pains and swelling incident to this disease. The worst forms of this disease readily yield to a few applications of a chain, and in no single instance have they failed to give instant relief, if they did not effect a permanent cure. All persons who are victims of this usual winter complaint, are kindly invited to call and obtain a pamphlet of Foot & Farrington, agents for Syracuse, who will also explain their mode of use.

The electric chains can be sent by mail to any part on the United States, by addressing (post paid) any of the agents in the principal cities, or Joseph Steinert, 568 Broadway, New York.

CARD TO LADIES.

Ladies who are *enceinte* are requested not to wear them *only* for a few minutes at each application, for by long, continued use miscarriage is frequently produced.

THE subscriber has made arrangement and procured the necessary materials for covering buildings with the popular Composition and Gravel Roofing. This system of Roofing has given universal satisfaction wherever it has been introduced, and is rapidly superceeding all others. Its great advantages of durability, cheapness, tightness, and perfect safety from fire recommend it to all persons erecting good buildings. Though fully equal to tin in every respect, the cost is less than one half—but little more in fact than pine shingles.

## Pitt's Patent Separator,

IMPROVED DOUBLE PINION HORSE POWER,

Corn and Cob Mills, &c.

I HEREBY give notice that since the extension of the Patent Riggbt on my machine for thrashing and cleaning grain, I have removed to Buffalo, N. Y., where I have permanently located and erected a large establishment for the future manufacture of the above machines.

The Separator has been enlarged, improved and rendered more permanent and durable in all its parts, while the Horse Power, for strength, ease, durability and cheapness of repair, is not surpassed by any in the United States. This Power is warranted to stand the full strength of eight horses; also to give as much effective or useful power when driven by one or two horses as any other Horse Power, whether constructed on the endless chain or lever principle. It was put on trial at the great exhibition of Horse Powers and Treshing Machines at Geneva in July, 1852, where it received the New York State Agricultural Society's first premium.

My machines will thresh and clean from three to five hundred bushels of wheat per day, and other grain in proportion. Two hundred of the above machines are for sale at the Agricultural works of the subscriber in this city, all warranted to be a better article than can be purchased at any other shop, and if they do not on trial prove to be so, I will take them off the hand of the purchasers at the price they may pay me for them.

I further notify all persons who are purchasing Horse Powers to be used in California and Oregon, that I will hold them accountable for any infringements to the rights secured to me by letters patent to the above machines, as I am manufacturing a Horse Power and Separator expressly for that section.

All orders for the above machines, hereafter addressed to John A Pitts, Buffalo, New York, will receive prompt attention. JOHN A. PITTS.

## POETRY.

### THE PRINTER BOY.

WRITTEN BY JESSE HUTCHINSON.

(Written for a Ball to Musicians, and sung by them at a Printer's Festival.)

I'll sing you a song of a Printer Boy
Whose bright and honest sense
Stands out in glowing contrast,
Upon the scroll of fame—
Who on the days that tried man's souls,
In Freedom's darkest night—
Stood manfully with Washington,
And battled for the right.

Ben Franklin was that Printer Boy, one of the olden time.

And it was that boy who flew his kite
To the thunder clouds on high—
And brought the fabled lightning down
For a feeble in the sky;
Then he who caught this fiery lance,
And turned him for the chair,
"Pill now he's driven safe by Mayor,
Right into the Printer's Case.

Ben Franklin was that Printer Boy, one of the olden time.

Long shall the child retail his name,
The patriot and sage,
Who fully justified by Life,
Was proved by every page;
His force, corrected and revised,
In your record of age and praise!
A new edition in the clouds,
A star among the Hyads.

All honor to that Printer Boy, one of the olden time.

And now, my Brother Typos, take
This trader for your guide;
Gather connected copy, and
All evils smoked consider—
Be frugal, chaste and temperate,
Stick to the golden rule,
And you shall stand among the stars
In the Printing Office school.

Long Bullitin the Printer Boy, one of the olden time.

*Great Fire at Worcester, Mass.*—A full account of the extensive fire, which lately occurred at Worcester, Mass., is to be found in the Boston JOURNAL. About half a million of property was destroyed, and some of the best buildings in the very centre of the city Speaking of one of the sufferers, the JOURNAL says:

"Great sympathy is felt for Mr. Merrifield, whose public spirit and real Yankee enterprise has done much towards building up the mechanical business of Worcester. He form his less with the coolness and composure of a philosopher. While the flames were at their height, stripping him of his property, he turned to a prominent citizen of Worcester, standing by him, and said: Col. H——, I have a note of $3,000, which is due this afternoon; I cannot attend to it myself; please take this [handing him a pocket book] and pay it. His friend did so and paid the note, and Mr. M. went on giving directions about the fire.

The number of persons thrown out of employment is estimated at 1,500. During the fire the citizens of Worcester turned out in good numbers and rendered efficient aid to the firemen—The sun was very hot, and the firemen suffered intensely. Twenty or thirty were badly heated, and had to be removed and placed for the time under the care of the physicians.

His Excellency, Governor Washburn, was on the ground, and when the firemen became exhausted took hold of the brakes and helped work the machines like a true citizen. Several of the city clergymen rendered valuable aid. Rev. Messrs. Hale and Hale became the carriers of water to the heated and panting firemen, and Rev. Mr. James mounted the roof of a building, and did valient service in battling the flames."

*Print it in letters of Gold.*—A fellow whose son was addicted to some vicious propensities, took the boy drive a nail into a certain post whenever he should commit a fault, and agreed that a nail should be drawn out whenever he should recount an error. In process of time the post was completely filled with nails.

The youth became alarmed at the extent of his indiscretion, and set about reforming himself. One by one the nails were drawn out; the delighted father commanded him for his noble self-denying heroism, in freeing himself from his fault.

"They are all drawn out," said the parent.

The boy looked sad, and there was a whole volume of practical wisdom in his sadness. With a heavy heart he replied:

"True, father, *but the scars are there still!*"

Parents who would have their children grow to sound and healthy characters, must sow the seed at the fireside. Charitable associations can reform the man, and perhaps make a useful member of society: but alas! the scars are there. The reformed drunkard, gambler or thief, is only the wreck of what he once was; he is covered with scars—a fitch will disfigure his character as long as he shall live.

*Western Eloquence.*—A stump orator in the West used the following appropriate language: "If I am elected to this office I will represent the earth, or the eight contracts with the day. I will convert human society, clean all its parts, and screw them together again. I will correct all abuses, purge all corruption, and go through the enemies of our party like a rat through a new cheese. My chief recommendations are, that at a public dinner given to——, I ate more than any two men at the table—at the late election I put in three votes for the party—I've just bought a new suit of clothes that will do to wear to Congress, and I've got the handsomest sister in old Kentuck."

*What I would do.*—If I were possessed of the most valuable things in the world, and was about to will them away, the following would be my plan of distribution:

I would give the world truth and friendship, which are very scarce. I would give an additional portion of truth to lawyers, traitors and merchants. To gossiping women, short tongues. To young spark, or dandies, common sense, little cash and hard labor. To old maids good temper, smooth faces, and husbands. To old bachelors lots for virtue, wives and children.

*Progressive.*—There is not a country in the world where the people are becoming so extravagant in the mode of dressing and living as in the United States. It is one of the worst signs of the times. The habits of the mushroom aristocracy are really disgusting. How ludicrous it looks to see boys sporting diamonds by the thousand dollars' worth at a time, whose fathers were accustomed to wheelbarrows, and whose children are pretty certain to be in the workhouse.

And girls—silly, simpering things—weighed down with jewels and bracelets, whose mothers broke their backs at the washing-tub, scouring floors and picking cockles. The real, substantial aristocracy never indulge in such foppery and fooleries.—*Ex.*

An Asiatic chief, being asked his opinion as to wine, remarked that he thought it was a juice extracted from a woman's tongue and a lion's heart, for after he had drank enough of it, he could talk forever and fight the devil.

An exchanges paper asks very innocently if it is any harm for young ladies to sit in the laps of young men. Another replies that it all depends on the kind of laps selected. These from 18 to 22 is quite down as extra hazardous.

*Burns, the Fugitive.*—The U. S. cutter Morris, with Burns, the fugitive slave, on board, arrived at Norfolk on Saturday.

## A New Volume of the Sentinel

Will be commenced on Saturday, the 8th of July next, and we hope as many of our readers as can will continue to pay up by that time and take a new start. It will be such a variety to some of them to settle up, that we feel quite a philanthropic desire to be instrumental in furnishing the rare delight.

We design enlarging the Sentinel so as to give our readers nearly *one half more news* than at present, and make it THE LARGEST PAPER IN THE STATE. The enlargement will be made as soon as we can complete the necessary arrangements and procure a New Press of corresponding dimensions.

To meet the heavy outlay we shall naturally incur in these improvements we confidently hope our friends will interest themselves in extending our circulation. There are but few who could not, if they would try, induce at least one neighbor or friend to subscribe, and we hereby appoint each subscriber to act as a committee of one for this purpose.

As a further inducement to new subscribers, we will furnish the Sentinel to them at the following reduced rates:

Five copies, and one to the person getting up the club, for $7. 50, Ten copies, and one do. for $12.50

Payment in all cases to be made in advance.

## DEMOCRATIC MEETING.

The Democracy of Allen County will have a gathering at the Court House, in this City, on Saturday next, at 2 O'clock P. M.

In the evening, there will be a public display of Fireworks on the grounds fronting the Sentinel.

A majority of the merchants have resolved to close their Stores during the Fourth.

Hon. John Pettit.—We observe that all the abolition presses throughout the State are vending their spleen and the poisonous venom of their debased hearts on the speeches made by the above named gentleman, at Indianpolis and Indianapolis, on the Nebraska & Kansas Bill. Not satisfied with his arguments, and his forcible conclusions, they persist in changing his language and perverting the truth thereof with the view of deceiving the public mind. "O Shame where is thy blush!" Consistency where are they virtues! *Ye defamers of truth, ye disturbers of peace and violators of law and order*, better that you turn from the "error of your ways" and avoid the just and honest judment that will be passed upon you by the triumph of the unchangeable principles of Democracy at the approaching campaign. You are heaping epithets upon a man whose hatches you are unworthy to unloose and whose mighty powers of intellect you are unable to comprehend. Your thundering and invectives have about the same force as a "Ram-butting a gate post."

## The Nebraska and Kansas Bill.

We publish to day the bill introduced by the Hon. Stephen A Douglas, Chairman of the Committee on Territories in the U. S. Senate, commonly called the Nebraska Bill, upon which there has lately been so much discussion, and which, to a considerable extent, is now absorbing the attention of the people of the north. We venture to say that no measure has ever been presented to the American people which contained principles of more vital importance, and which, when properly understood, will meet more general sanction by the genuine supporters of political freedom. And yet it has been met by our opponents only by the fiercest denunciations and abuse, not only by whigs and professed abolitionists, but by all factions, leagues and alliances to divide of the democratic party, who seek at all to influence political action.

We are aware that some of the democrats differ in sentiment respecting this measure, though we believe they generally agree that the principle of *non-intervention by Congress* is right. Some think this principle was sufficiently and recalled for in its application to the Territories organized by this bill. We respect the opinions of such as honestly differ with us; we are willing to accord to them the same right we claim for ourself; but we think, when the provisions are sufficiently examined to be judged of on their true light; when we carefully examine the legislation by Congress, of 1850, and the reasons that induced that legislation; when we consider that, by it, the question of slavery concerning other territories was withdrawn from the Halls of Congress and referred to the people who settle third. This is our experience, and our readers are welcome to it.—*Indiana Post.*

## The Democratic Party.

The Democratic Party (I) represents the great principle of progress. It is onward and outward in its movements. It has a heart for nation, and motives for a watch. It constitutes the principle of diffusion, and is to humanity what they contrifugal force is to the revolving orbs of a universe. What motion is to them, Democracy is to principle. It is the soul in action. It contains in the providence of God. It has confidence in man, and unfailing reliance in his high destiny. It has for its motto Liberty, the greatest good, and the surest happiness. It aims to build up the great interests of the country, to the best development of the few. It remembers the past, without neglecting the present. It establishes the present, without fearing to provide for the future(?). It do it in the face of truth. Newspaper articles headed "The Nebraska Swindle" are dinning the whole country. Now the provisions, as we understand, against which objections are mainly made to this bill, are contained in the 14th section, and which, upon examination, will be found to provide in substance, that Congress shall neither legislate slavery into these Territories, nor out of them, but leave the people of the Territories free to regulate their domestic concerns in their own way, subject only to the Constitution of the U. S.—which embraces the question of slavery as well as all others—and the concluding part of this section expressly provides against the result that is charged, that is, *that slavery is legislated into these Territories.*

The provisions of this bill simply leave to the people who settle in the Territories the regulation of this, as well as all other questions concerning their domestic rights; this is all there is And for the opposition of this right all dishonorary, and threats of dissolving the Union have been made. We think it is time at length that truth should make itself understood, and, with this view, place before our readers this bill as it became the law of the land, without the objectionable amendment offered by Mr. Clayton, whig senator from Delaware. We ask you to read and judge it for yourselves. We abstain at present from making any extended remark upon the many published falsehoods against it, preferring first to let our readers examine this bill. At some future period we shall take occasion to comment fully upon the repeal of what is called the "Missouri Compromise." We shall meet the charges brought against it by showing the faithless manner in which it has been observed by the men who are now prating about violated faith and the observance of solemn compacts; we shall show the falsity of the common charge against the supporters of this bill in the North, that they are encouraging and sustaining the institution of slavery for unworthy political objects; and we shall try to unmask the hypocrisy of those who make this charge. It is not true that we are the advocates of slavery for the sake of slavery, or to advance *unworthy political objects.* With slavery as an abstract question as to its moral right or wrong, we have nothing now to say; but when we consider that slavery existed in nearly all the States at the time and long before our Federal Union was formed, and when we consider the objects of that Union, we are constrained to think it was foreign to those objects to assume the regulation of the domestic institutions either of the States or Territories. For ourself, we prefer to sustain the action of our government in its proper sphere, instead of joining in the political crusade of our combined adversaries.

We are the advocates of this bill, not because we are the friends of slavery, but because we are the friends of self-government, and of the equal rights of the South as well as the North. We object to that kind of *usurpation* which looks only to the portion of the Union in which we happen to live; and while we frankly admit we see nothing to admire in slavery, we see much to condemn in the modes of warfare against it. The South had her institutions before we had this government; and because some of us may not like them, we can plead no justification in permitting ourselves to be fanned by the flames of *restless fanatics* into an unjustifiable aggression against them.

We think this narrow sentiment would not be justified when we consider we have a government brought into being by the patriotic men of the South as well as the North; we think it a foiling alien to the spirit of our Constitution.

We call upon our fellow citizens, and especially the democrats, to examine this bill for themselves; and we call upon you, in these times of alarming popular delusion, to sustain our government in the support of Constitution, law and order. In doing this you will have the consolation to stand where you always have stood. There is no cause for alarm if democrats do their duty; we ask you to consider that no prominent measure was ever passed by a democratic administration —however palpably just and necessary—but what has been denounced by our opponents as ruinous to the country, and yet our country, under democratic administration, has survived all these predictions.

Harper's Monthly Magazine for July has come to hand, filled with an unusually good selection of interesting reading, and illustrated with a large number of beautiful wood engravings. In mechanical or artistic appearance it is one of the best magazines public her in the United States. Price 25 cents.

It can be found at Hill's book Store as well as Putnam's Monthly and Graham's Magazine.

*The Western Odd Fellows Magazine.*—This work will hereafter be published at Centreville, Indiana, by Geo. B. Jocelyn, who has recently purchased said Magazine and intends printing it in a more new type, whereby he hopes to excel any Magazine in the west in typographical appearance, and equal any and all in the reading matter that shall fill its columns.

We bespeak for the new Editor and proprietor of said work a liberal patronage from the Brotherhood. It only costs one dollar per annum when paid in advance.

*Schnapps Soda Water.*—As a medicine we have great respect for fresh water, whether in large as the Lake Superior, or in small quantities. We also like it when impregnated with alkali and fixed air, it assumes the sparkling form of soda water. And this brings us to a new fact in medicine, viz: the new introduction and popularization of a new modification of soda water, called *Soda Schnapps.*" It is simply an infusion of a little of Wolfe's Schiedam Aromatic Schnapps in ordinary soda water. This delightful exhilarant imparts a pleasant flavor to the beverage—prevents its icy coldness from having any bad effect on the stomach, corrects its acidity, renders it more refreshing, and effectually quenches the most obstinate thirst. Call and try it at the Sentinel office.

## Democracy in Wisconsin.

Boston, June 27.

The Whig Convention will be held on Thursday the 29th inst. at Portland. The Convention of Free Democrats is to be held at Lewiston, on the 5th of July.

(I) Democracy is compounded of two Greek words, —"*Demos*," people, and "*Kratos*," government. The government of the people.

(2) "Cato," says the son of the late Judge Story (who as far was in early live a democrat) "Is speaking of this subject (democracy.) I have heard him say, "I like as much to see a young man democratic as an old man conservative. When we are old, we are cautious, and afraid of change. If we live to be old, we are conservative. When we are young, we hope too much; if we are generous and poor."—*Life and Letters of Judge Story*, vol. 1, p. 99.

Cardozo, although as aristocrat by genius and by birth, became a democrat from philosophy.—*Lamartine.*

(3) A few years since, a whig member of United States Senate sneeringly asked senator Allen, of Ohio, the question, "What is Dana theory?" The following was the prompt reply. Democracy is a sentiment not to be appalled, corrupted, or compromised. It knows no bankruptcy; it cowers to no dictator; it oppresses no weakness, destructive only of despotism, it is the sole conservator of liberty, labor, and property. It is the sentiment of freedom, of equal rights, of equal obligations,—the law of nature; pervading the law of the land."

# FOREIGN NEWS.

The Atlantic arrived early this A. M., with Liverpool dates to the 13th.

France.—Paris, Friday.—We stated last night as positive, that Marshal St. Arnaud had written to the government, demanding another division. It would appear that some discontent was felt at the resolve of Prince Napoleon. He is said to be in constant communication with the refugees, and indeed, the fact of his having been accompanied by Madame Emile, from Paris to Marseilles, occasioned considerable displeasure in high circles. It is asserted that there is every probability of his soon being recalled if he does not give up the disagreeable office of Commissioner, and return to the exercise of his division.

The Paris Moniteur contains a decree issued by the Austrian government, prescribing the course to be adopted by the commanders of vessels carrying the Austrian flag during the war.—The decree is dated May 24th, 1854.

The Russians have left Omer for Kostanza carrying with them 3,000 sick. The inhabitants of the latter place, on hearing of this latter movement, sent to the Russians that the place was in a state of famine, and that they would be badly received there.

The Russian troops, who have evacuated the fortress on the mouth of Aunpa, to redoubt at Kalu, have marched to Tulbe. Schumele was within 18 hours march of that place, at the head of 30,000 men.

Austria and Prussia.—It is rumored that the conference of the Emperor of Austria, and the King of Prussia is held however a negative answer, as expected from Russia, and the Empire of Austria is willing to renew the summons.

*Hoofland's German Bitters.*—We we have read the numerous of our readers to the advertisement of Dr. Hoofland's celebrated German Bitters, prepared by Dr. C. M. Jackson, No. 120 Arch street, Philadelphia. In a recent letter Complaint, Dyspepsia, Disease of Kidneys, and all diseases arising from a disordered stomach, the proper remedy is called, if applied, by any other known preparation, in the cases attest, in many cases, after the most celebrated physicians had failed. We can speak more fully and decidedly in relation to the merits of this medicine, as being what it represented, and we deem it a duty we owe to all afflicted to recommend it, and we will be convinced of the truth we assert.

A Worderful Discovery has recently been made by Dr. Curtis, of this city, in the treatment of Consumption, Asthma, and all diseases of the lungs. We refer to "Dr Curtis's Hyssopus, or Healing Hyssop Syrup of Cherry Syrup." With this new method Dr C. has restored many afflicted ones to perfect health, and we refer to the following testimonial as a sufficient. Symptoms of the worst kind, as they will see by the certificate. It is evident that Healing Cherry breathing an agreeable, healing vapor, the medicinal properties must come in direct contact with the whole of the air cells of the lungs, and thus cause the many and various changes produced in them as above named and thereby effect a perfect cure of the worst cases of consumption. ## MEDICATED INHALATION.

### A New Method.

A MOST WONDERFUL DISCOVERY has recently been made by Dr. CURTIS, for the cure of Asthma, Consumption, Bronchitis, Coughs, Colds, and all Lung Complaints, by Medicated Inhalation. Dr. CURTIS'S HYGEANA, or INHALING HYGEAN VAPOR and CHERRY SYRUP, has accomplished the most wonderful cures of Asthma and Consumption in the city of New York and vicinity for a few months past, ever known to man. It is an established fact, that one-fifth of the deaths and one-fourth of the lungs that cannot possibly be reached by other medicine.

Hear is a case:

ASTHMA CURED.

BROOKLYN, N.Y., Dec 20th, 1853

For about eight years I have been severely afflicted with the Asthma; for the last I have suffered it beyond all my powers of description, insomuch at times I have not been able to sleep in bed, getting what rest I could sitting in my chair. My friends and physicians, and my self-rings were so great at times, that for hours together my friends expected each hour would be my last. During the past six years I have had the attendance of several of the most celebrated physicians, but have received no permanent benefit, and but little relief. I at length had the good fortune to procure Dr. Curtis's Hygeana or Inhaling Hygean Vapor and Cherry Syrup. At the time I first obtained it, I was suffering under one of my most violent attacks, and was in great distress, almost suffocating for want of breath. In less than two minutes from the time I applied the inhaler to my stomach, and took a teaspoonful of the Cherry Syrup, I was relieved in a great measure from the difficulty of breathing, and had a comfortable night's rest,

# REAL PREMIUM

**DAGUERREOTYPES.**

"Sweet copy, far more dear to me,
Lifeless, wrinkles as thou art,
Than all the living forms that be,
Since few who placed them near my heart."

Mr. A. McDONALD returns this sincere thanks to the citizens of Fort Wayne and vicinity for their liberal patronage, and respectfully invites a call to examine specimens of his pictures, and see the perfection to which the Daguerreian art has arrived.

His Pictures exhibited at the late State Fair, at Lafayette, were unanimously admitted to be far superior to any collection of pictures there, for which he was awarded a Premium and Diploma.

Those who want perfect copies of themselves or friends are respectfully invited to call and see the

(not those styled so only by the advertiser) at Mr. McDonald's Rooms, No. 3 Phenix Block, Calhoun street.

Instructions given in the Art, and Apparatus and Materials furnished on the lowest terms.

We, the undersigned, who attended the late State Fair at Lafayette, take pleasure in certifying that Mr. A. McDonald's Daguerreotypes were universally admitted (as far as we heard any expression) to be far superior to any exhibited at the Fair.

## About Medicine

SEEKING the world is full of new Medicines, if any person would mention a still another, in the midst of confusion, what is to be done? There is nothing to be done, if the medicine is good, that we know of, only to write the truth about it, in plain language, and let the article stand on its own merits, by speaking for itself through its cures. Of the purely natural Remedy obtained from a *Salt Well, 180 feet deep, in Pennsylvania,*

# KIER'S ROCK OIL,

*We observe* that as it cures various diseases, it will not do to class it among the humbugs,—although it is too much to say it will cure every body every time; now, very few, however, among the multitudes now using it, are disappointed. Used as it is, both EXTERNALLY and INTERNALLY, it stands the greatest chance of reaching the seat of disease. There are various kinds of old Petroleum adhesive to smell and taste. Many of the lineaments of the day and numerous are very good for complaints in part with some kind of Rock Oil. Hence it sounds to reason that if a Petroleum can be had which can be swallowed it must be good, and thus, *Kier's Oil*, having this advantage, is the very essence and quintessence of medicine. It destroys the whole system, from the bone—flesh and blood—skin and bones and eradicates disease and the cause of Disease—root and branch.

Installed in using this language, as the Proprietors are, from personal observation for the last two or three years, as well as from constantly accumulating testimony—Letters—Certificates—printed, and written, and verbal Statements,—we do not feel at liberty to hold back the result from the people—it would not be right.

## IF YOU OBJECT

that it is said to cure so many diseases to be good—We reply—We cannot tell how it is, but so it is—that it cures so many diseases—and that is no affair of ours—it is the good Samaritan of the afflicted. We suppose it to be just as easy for NATURE to make a Remedy for the whole mass as part of a mass—she never leaves her work half done. Another thing—we do not have so many diseases as we think. Take for instance

SCROFULA—or KING'S EVIL—and all those Diseases having their origin in a deranged condition of the blood, and other fluids of the body,—this Oil will eradicate them with little cost. And yet there are perhaps a dozen different manufacturers of Scrofula in the market—a difference in diseases—and some people call them different diseases, which will never do. It was the opinion of the late *Dr. Rush*, Philadelphia, that there existed in *Nature* an antidote to every malady to which man is liable.

PILES.—C. Garretson, Ga.; Mr. Shell, Allen Co., Ind., J. M. Marshall, Salisbury, and others—use internally and externally.

## Proclamation to the Inhabitants of Syracuse.

## $1,000 REWARD!

## PULVERMACHER'S

## *Hydro-Electric Voltaic Chains*

ARE for the first time introduced to the people of Syracuse and vicinity, and the most extraordinary, startling and astonishing results are instantly achieving and unanswerably curing all

DISEASES AND DISORDERS.

Now we know that an announcement similar to the above meets the eye of the reader almost daily, and perhaps that may be classed with many others. But before you throw this pamphlet aside in disgust, we beseech the afflicted to read it. It is the only magazine scientific agent that is secured by patenting or sealed by this government, on the ground that it was scientifically and practically discovered. The Chains are now on exhibition at the Crystal Palace and attract much attention from the thousands who daily visit it.

MODE OF USE.

The manner of using the Chains is very simple. The chain is first moistened with common *vinegar*, and then one end of the chain is applied to the part where the pain is located, and the other end opposite to it. The middle of the chain should rest on the back or abdomen. After a short application, the most acute pain is instantly relieved, wherever it is located, by the powerful, though the most harmless, current of magnetic electricity it imparts. In the following diseases, an effect is nearly as sure to follow as the sun rises in the east. Long standing Nervous Headache, Tic Doloureux, Head, Back and Stomach Pains, Rheumatism, Neuralgia, Contracted Muscles, Lumbago, Paralysis, Convulsions, Asthma, Pleurisy, Sciatica, Bronchitis, Deafness, Scrofula in the form, Long standing Nervous Prostration, Palpitation of the Heart, Inflammation of the Lungs, Spasmodic Affections, Pustules and Boils, &c.

FEMALE DISEASES.

The manufacturer has been for years in this country, a resident of more than one million persons during the last twenty years, it can safely be estimated that no thousand females have died yearly from the causes of these

PECULIAR DISEASES.

It is well known to medical men that their common directory is beyond the reach of medicine, and that in proportion to the amount of medicine given, the more they are thrown back on the sufferer, and sooner it sinks with chronic disease.

During the last 15 years more than one thousand *scientific professors* (graduates of the medical Lancet) have been personally taught in England and France. Most of these cases were Ladies of high standing, who had previously tried all other known and recommended cures in this country. Among the doctors, skilled in the healing art, were those who had graduated in France in the presidency of Professor Lantheus, stating that the last year, over *three hundred* cases came under the care of New York physicians. A treatise on the subject is to be published for the benefit of those unfortunate females who are afflicted with similar complaints. The mode of use so simply to apply one end to the part where the pain is located, and the other end opposite to it, and allow the Chains to remain for one hour. This is to be repeated four times during the twenty-four hours.

THE ELECTRIC CHAINS

The Electric Chains are very full to relieve in a comparative and startling manner in all the diseases. They would have at first the invention of their wonderful power, but after a short time they are readily yielded to as a simple cure for the afflicted to give instant relief, if they did not effect a permanent cure. All persons who are victims of this most wonderful curative kind, are kindly solicited to call and obtain a pamphlet of Prof. E. Pennington, agent for Syracuse and vicinity.

The Electric Chains can be sent by mail to any part in the United States, by addressing (post paid) any of the agents in the principal cities, or Joseph Stewart, 56 Broadway, New York.

CARD TO LADIES.

Ladies who are considerable suspected not to wear them owing to a few members of such applications, for by long continuous, misunderstanding is frequently produced.

## Pitt's Patent Separator,

IMPROVED HORSE PINION HORSE POWER,

Corn and Cob Mills, &c.

THE HEREBY gives notice that since the extension of the Patent Right on my machine for cleaning and cleaning grain, I have removed to Buffalo, N. Y., where I have permanently located and erected a large establishment for the future manufacture of the above machines.

The Separator has been enlarged, improved and rendered more convenient and durable in all its parts, while the Horse Power, for strength, ease, durability and cheapness of repair, is not surpassed by any in the United States. This Power is warranted to stand the ball six months (eight horse) to work as much as all eight or ten horse power when driven by one or two horses as any other Horse Power, whether endless rope or the cradle and rack and pinion principle. It was put on trial at the great exhibition at Horse Powers and Threshing Machines at Syracuse, July, 1852, where it received the New York State Agricultural Society's first premium.

My mode now will teach and show from three to five bushels of feed to an hour per day, and other grain in proportion. This is unrivaled for the above machines, as I am manufacturing a Horse Power and Substructure expressly for that section.

All orders for the above machines, hereafter addressed to me at Buffalo, New York, will receive prompt attention. JOHN A. PITTS.
